The following guide is quite simple to use. Refer to this guide if kains PS2 DVD backup guide #1 fails.

The program used in this guide is nearly identical to the program Prassi.

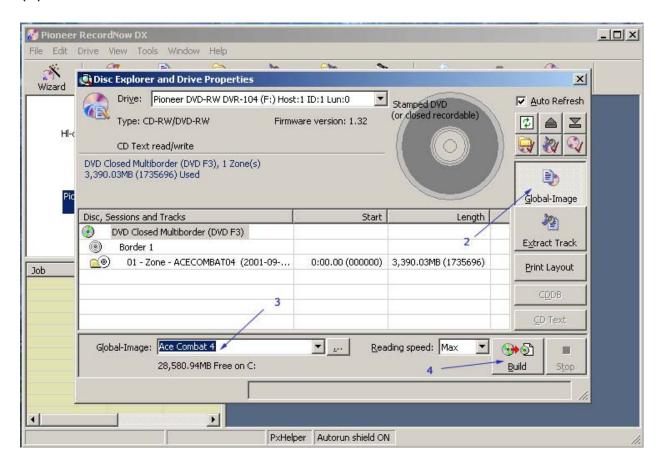

## Step 1.

Make sure your DVD burner is selected on the left - then click the Drive button.

## Steps 2,3 &4

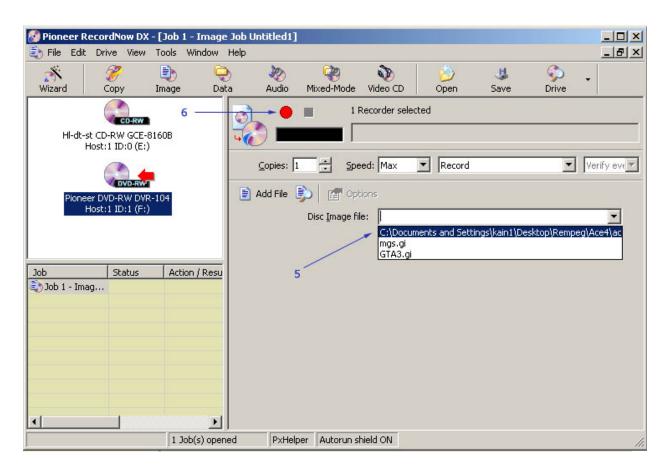

- (2) Click the Global-Image button
- (3) Name the image accordingly
- (4) Click the Build button and wait.

## Step 5 & 6.

Be sure your DVD burner is selected - on the left.

- (5) Select the image file (.gi)
- (6) Ready to record... Click the red button!
